

code::dive

code::dive  
**conference**

5<sup>th</sup> of November 2014

Wroclaw Congress Center at Centennial Hall

**Featuring:**

**Scott Meyers** / one of the world's famous experts on C++ software development /

**Venkat Subramaniam** / founder of Agile Developer, expert in functional programming on the JVM /

- Multithreading ...sounds complicated?  
It won't after you've attended **"Threading: dos and don'ts"**  
by **Bartosz Szurgot**
- Are you familiar with CPU caches and how they affect your code?  
Learn more at **"CPU Caches and Why You Care"** by **Scott Meyers**
- Cutting edge technologies?  
**"C++ Concepts Lite"** by **Robert Matuszewicz** is really at the cutting edge!
- Is your code's design too heavy?  
Listen to **"Core principles and practices for creating lightweight design"**  
by **Venkat Subramaniam** and streamline that code!

/ A day of lectures, continuously conducted in multiple tracks, with the opportunity to meet programming gurus. Share your experience and knowledge with other developers /

**Register and join for free!**
